An unmade road brings you to this delightful, detached and spacious cottage neighbouring the owners' farmhouse on their 95 acre small holding. It is set on the slopes of Plumstone Mountain in the heart of some of Pembrokeshire's most stunning countryside where wildlife and birdlife abound, along with a plethora of footpaths to explore.

The modern fitted kitchen and spacious lounge diner, with comfortable sofas, are a welcoming retreat. The large bedroom, which has one double bed and one bunk bed in the same room, has a stable door into a small conservatory style sun room, sit here or in the small lawned garden and admire the beautiful rural view over the valley to the distant Preseli Hills.

Conveniently located the large, sandy beach of Newgale and the rocky coves to the north are within an easy drive as are the facilities in the vibrant market town of Haverfordwest. A delightful rural retreat.
